Springer International

Skeletal Radiology

Founded in 1976.
Volumes 1–8 (1976–1982) edited by J. Edeiken, H.G. Jacobson, R.O. Murray, and P. Jacobs (replaced R.O. Murray from Volume 7, Number 3, 1981, to Volume 8, Number 3, 1982)

Volume 9 (1982/83) edited by J. Edeiken, H.G. Jacobson, and W.M. Park (deceased)
Volumes 10–12 (1983/84) edited by J. Edeiken, H.G. Jacobson, and R.O. Murray
Volumes 13–20 (1985–1990) edited by H.G. Jacobson, T.E. Keats, and D.J. Stoker

---

Copyright

Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication elsewhere; that its publication, has been approved by all coauthors, if any, as well as by the responsible authorities at the institutes where the work has been carried out; that, if and when the manuscript is accepted for publication, the autors agree to automatic transfer of the copyright to the International Skeletal Society; and that the manuscript will not published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), as well as all translation rights. No material published in this journal may be reproduced photographically or stored in microfilm, in electronic data bases, video disks, etc., without first obtaining written permission obtained from the International Skeletal Society.

The use of general descriptive names, trade names, trademarks, etc., in this publication, even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations.

While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

Special regulations for photocopies in the USA

Photocopies may be made for personal or in-house use beyond the limitations stipulated under Section 107 or 108 of the U.S. Copyright Law, provided a fee is paid. This fee is US$0.20 per page per copy, plus a basic fee of US$2.00 per article. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0364-2348, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must be obtained from the International Skeletal Society.

Other regulations

Authors publishing in this journal can, under certain conditions, benefit from library and photocopy fees collected by VG WORT. Author resident in the Federal Republic of Germany can apply to Verwertungsgesellschaft WORT, Abteilung Wissenschaft, Goethestrasse 49, W-8000 München 2, FRG, for detailed information.

Subject Index

Absence, congenital, of posterior arch of atlas (*case report 665*) 231
Absent cervical pedicle, imaging of 325
Absorptiometry: comparison of dual photon and dual energy X-ray bone densitometers in a clinic setting 591
Accuracy of vertebral mineral determination by dual-energy quantitative computed tomography 25
Acetabulum and superior pubic ramus, chondroblastoma of (*case report 696*) 547
Acetabulum, computed tomography measurements in adult dysplastic hips: which level is appropriate? 267
Acromioclavicular joint, radiological evaluation of 115
Active abduction view: a new maneuvre in the diagnosis of rotator cuff tears 255
Adamantinoma of tibia (*case report 660*) 152
Aluminum osteodystrophy, solitary, spontaneous cervical and large bone fractures in 91
Aneurysm, thrombosed, leaking popliteal (*case report 651*) 71
Announcements 124, 204, 284, 344, 446, 526
Anterior cruciate ligament repair using the patellar tendon double bone block technique, MR evaluation of 585
Anteversion, femoral, is there a relationship between leg torsion and? 409
Antley-Bixler syndrome: description of two patients 339
Apical oblique view of the clavicle: its usefulness in neonatal and childhood trauma 201
Apophyses, cervical spinal ring, avulsion of: acute and chronic appearance 207
Arteriovenous malformation (arteriovenous hemangioma) of the distal thigh with bone involvement (*case report 649*) 63
Arteriovenous malformation of the right lower extremity with associated intraosseous hemangiomatosis (*case report 671*) 303
Arthritides, seronegative, of the anterior chest wall: a follow-up study 517
Arthritis, carrageenin-induced, physical bone changes evaluated by quantitative computed tomography 345
Arthritis of the wrist due to *Mycobacterium avium-intracellulare* (*case report 653*) 291
Arthritis, *sporotrichal* (*case report 678*) 376
Arthritis, suppurative, of right hip, and bilateral avascular necrosis of femur (*case report 662*) 217
Arthrography, contrast and nuclear, in loosening of the uncemented hip prosthesis 15
Arthrography, double contrast of the knee, diagnostic potential with the digital technique 5
Arthrography of painful hips following arthroplasty: digital versus plain film subtraction 403
Arthrogrypotic knees, radiographic changes in 193
Arthropathy, neuropathic, of the shoulder with no identified cause (*case report 697*) 550
Arthroplasty, arthrography of painful hips following: digital versus plain film subtraction 403
Aspergillus (pulmonary) chest wall involvement in chronic granulomatous disease: CT and MRI findings 487
Atlas, congenital absence of posterior arch of (*case report 665*) 231
Atrial myxoma, metastatic, to the pubis (*case report 689*) 465
Avascular necrosis of femur, bilateral, with supervening suppurative arthritis of right hip (*case report 662*) 217
Avulsion of the cervical spinal ring apophyses: acute and chronic appearance 207

Benign clavicular lesions that may mimic malignancy 173
Benign osteoblastoma causing spinal compression and spastic paresis (*case report 647*) 54
Bicipital groove dysplasia and medial dislocation of the biceps bracii tendon 419
Bilateral avascular necrosis of femur, with supervening suppurative arthritis of right hip (*case report 662*) 217
Bipartite medial sesamoid below head of first metatarsal, a developmental variant (*case report 666*) 233
Bone infarct, previous, malignant fibrous histiocytoma in (*case report 656*) 137
Bone island (enostosis): clinical significance and radiologic and pathologic correlations 85
Bone marrow disease, disseminated, in patients treated for malignancy, magnetic resonance imaging of 79
Book review 46, 186, 266, 494, 596, 600
Bursitis in association with solitary osteochondromas presenting as mass lesions 513

Calcific tendinitis of the vastus lateralis muscle. A report of three cases 21
Calcification, cerebral, and renal tubular acidosis associated with osteopetrosis (carbonic anhydrase II deficiency syndrome) (*case report 668*) 447
Calcifications in soft-tissue masses associated with Langerhans cell histiocytosis (LCH) of the skin, skull and mandible (*case report 702*) 620
Carbonic anhydrase II deficiency syndrome (Osteopetrosis associated with renal tubular acidosis and cerebral calcification) (*case report 668*) 447
Carcinoid tumor, metastatic osteoblastic (primary in pancreas or gallbladder) (*case report 659*) 149
Cartilage proteoglycan degradation in the rabbit knee, magnetic resonance imaging reflects 31
Cementifying fibroma of the proximal end of the tibia (*case report 695*) 643
Central low-grade osteosarcoma with foci of dedifferentiation (*case report 679*) 379
Cerebrotendinous xanthomatosis, computed tomography of tendinous xanthomata in 99
Cervical and large bone fractures, solitary, spontaneous, in aluminum osteodystrophy 91
Cervical paravertebral circumscribed myositis ossificans (*case report 694*) 539
Cervical pedicle, absent, imaging of 325
Cervical spinal ring apophyses, avulsion of: acute and chronic appearance 207
Cervical spines of middle-aged soccer players, radiographic findings of degeneration in 437
Chemotherapy, intraarterial, for osteosarcoma of the leg, femoral infarction following: a possible pitfall in magnetic resonance imaging 325
Chest wall, anterior, seronegative arthritides of: a follow-up study 517
Chest wall involvement (pulmonary *Aspergillus*) in chronic granulomatous disease: CT and MRI findings 487
Chloroma (granulocytic sarcoma), skeletal manifestations of 509
Chondroblastoma of maxillary sinus (*case report 670*) 299
Chondroblastoma of the right acetabulum and superior pubic ramus (*case report 696*) 547
Chondroblastoma, unusual, of scapula (*case report 663*) 222
Chondrosarcoma, clear cell, of bone. A report of eight cases 187
Chondrosarcoma, grade II, of the proximal end of the right femur (*case report 650*) 67
Chondrosarcoma of the proximal phalanx of right fourth finger secondary to multiple hereditary exostoses (*case report 658*) 145
Chronic granulomatous disease, pulmonary *Aspergillus* chest wall involvement in: CT and MRI findings 487
Cisplatin, osteonecrosis of bone associated with intraarterial therapy using (*case report 669*) 294
Clavicle, apical oblique view of: its usefulness in neonatal and childhood trauma 201
Clavicle, osteoma of (*case report 698*) 555
Clavicular lesions, benign, that may mimic malignancy 173
Clavicular overgrowth in association with cystic hygroma 597
Clear cell chondrosarcoma of bone. A report of eight cases 187

Comparison of dual photon and dual energy X-ray bone densitometers in a clinic setting 591
Computed tomography: is there a relationship between femoral anteversion and leg torsion? 409
Computed tomography and MRI findings in pulmonary *Aspergillus* chest wall involvement in chronic granulomatous disease 487
Computed tomography, dual-energy quantitative, accuracy of vertebral mineral determination by 25
Computed tomography measurements of the acetabulum in adult dysplastic hips: which level is appropriate? 267
Computed tomography of tendinous xanthomata in cerebrotendinous xanthomatosis 99
Computed tomography, quantitative, physical bone changes in carrageenin-induced arthritis evaluated by 345
Congenital absence of posterior arch of atlas (*case report 665*) 231
Congenital glenoid dysplasia (congenital hypoplasia of the glenoid neck and fossa of the scapula, with accompanied deformity of humeral head, coracoid process and acromion (*case report 655*) 134
Contrast and nuclear arthrography in loosening of the uncemented hip prosthesis 15
Cortical desmoid (distal metaphyseal femoral defect; distal femoral cortical irregularity) (*case report 683*) 394
Cortical thickness of upper humerus as an indicator of osteopenia: diagnostic significance in solitary myeloma of bone 363
Craniometadiaphyseal dysplasia, wormian bone type, radiographic features of 37
Cruciate ligament, posterior, intraarticular ganglion arising from (*case report 677*) 373
Cruciate ligament repair, anterior, using the patellar tendon double bone block technique, MR evaluation of 585
Cryptococcus neoformans osteomyelitis of shoulder (*case report 664*) 227
Cystic hygroma, clavicular overgrowth in association with 597
Cysts, popliteal: a reassessment using magnetic resonance imaging 433

Deformities, forearm, in multiple cartilaginous exostoses 483
Degeneration, radiographic findings of, in cervical spines of middle-aged soccer players 437
Desmoid, cortical (distal metaphyseal femoral defect; distal femoral cortical irregularity (*case report 683*) 394
Desmoid, periosteal, stress fracture at distal end of femur simulating (*case report 686*) 454
Developmental variant: bipartite medial sesamoid below head of first metatarsal (*case report 666*) 233
Diabetes mellitus, Freiberg's disease in 425
Diagnostic potential of double contrast arthrography of the knee with the digital technique 5
Digital technique, diagnostic potential of double contrast arthrography of the knee with 5
Digital versus plain film subtraction in arthography of painful hips following arthroplasty 403
Dislocation, medial, of the biceps bracii tendon and bicipital groove dysplasia 419
Dislocation, medial, of the patella 429
Disseminated bone marrow disease in patients treated for malignancy, magnetic resonance imaging of 79
Disseminated *Mycobacterium avium-intracellulare* osteomyelitis (*case report 687*) 458
Disseminated tuberculosis (*case report 654*) 130
Distal metaphyseal femoral defect (cortical desmoid; distal femoral cortical irregularity (*case report 683*) 394
Dog: telangiectic osteogenic sarcoma (*case report 673*) 311
Drill holes, osseous, to promote granulation tissue: radiologic appearance 205
Dual photon and dual energy X-ray bone densitometers in a clinic setting, comparison of 591
Dysplasia, congenital glenoid (congenital hypoplasia of the glenoid neck and fossa of scapula with accompanied deformity of humeral head, coracoid process and acromion (*case report 655*) 134
Dysplasia epiphysealis hemimelica (Trevor's disease), parosteal osteochondromatous hamartoma associated with (*case report 632*) 47
Dysplasia of bicipital groove and medial dislocation of the biceps bracii tendon 419
Dysplasia, Schneckenbecken (*case report 693*) 534
Dysplasia, sclerosing bone, new, lethal 117
Dysplasias, sclerosing bone — a target-site approach 561
Dysplastic hips, adult, computed tomography measurements of the acetabulum in: which level is appropriate? 267

Ehlers-Danlos syndrome — lumbar platyspondyly, characteristic sign of 589
Elbow, nodular fasciitis of (*case report 690*) 468
Enostosis (bone island): clinical significance and radiologic and pathologic correlations 85
Erratum 192, 533
Erratum (*case report 662*) 528
Exostoses, multiple cartilaginous, forearm deformities in 483
Exostoses, multiple hereditary, chondrosarcoma of the proximal phalanx of right fourth finger secondary to (*case report 658*) 145
Extraskeletal osteosarcoma of the thigh with several suspected skeletal metastases and extensive metastases to the chest (*case report 704*) 628

Facial bones: chondroblastoma of maxillary sinus (*case report 670*) 299
Fasciitis, nodular, of the elbow (*case report 690*) 468
Femoral anteversion, is there a relationship between leg torsion and? 409
Femoral condyle, stability of osteochondral fragments of: MRI with histopathologic correlation in an animal model 601
Femoral defect, distal metaphyseal (cortical desmoid; distal femoral cortical irregularity (*case report 683*) 394
Femoral head, osteonecrosis of, MRI appearance following core decompression and bone grafting 103
Femoral infarction following intraarterial chemotherapy for osteosarcoma of the leg: a possible pitfall in magnetic resonance imaging 325
Femoral neck and shaft, ipsilateral fractures of: an overlooked association 251
Femur: arteriovenous malformation (arteriovenous hemangioma) of the distal thigh with bone involvement (*case report 649*) 63
Femur: bilateral avascular necrosis of, with supervening suppurative arthritis of right hip (*case report 662*) 217
Femur: central low-grade osteosarcoma with foci of dedifferentiation (*case report 679*) 379
Femur: grade II chondrosarcoma of proximal end of (*case report 650*) 67
Femur: stress fracture at distal end of, simulating 'periosteal desmoid' (*case report 686*) 454
Femur, primary intracortical osteosarcoma of, sclerosing variant, grade 1 to 2 anaplasia (*case report 700*) 613
Fibrolipomatous hamartoma of the median nerve (*case report 667*) 237
Fibroma, cementifying, of the proximal end of the tibia (*case report 695*) 643
Fibromyxoid tumor, ossifying, of the soft parts of the upper arm (*case report 685*) 608
Fibromyxoma of bone 95
Fibrous histiocytoma, malignant, in a previous bone infarct (*case report 656*) 137
Fibrous histiocytoma, malignant, of patella (*case report 639*) 125
Fibula: osteonecrosis of bone associated with intraarterial therapy using cisplatin (*case report 669*) 294
Finger, index and middle, and thumb, metrical variation among four samples of both sexes 353
Foot: bipartite medial sesamoid below head of first metatarsal, a developmental variant (*case report 666*) 233
Forearm deformities in multiple cartilaginous exostoses 483
Fracture, stress, at distal end of femur simulating 'periosteal desmoid' (*case report 686*) 454
Fractures, cervical and large bone, solitary,

spontaneous, in aluminum osteodystrophy 91
Fractures, MRI features of using the short tau inversion recovery (STIR) sequence: correlation with radiographic findings 499
Fractures of ipsilateral femoral neck and shaft: an overlooked association 251
Fractures of the spinous processes of multiple thoracic vertebrae (*case report 688*) 463
Fractures, pisiform 169
Freiberg's disease in diabetes mellitus 425

Ganglion, intraarticular, arising from the posterior cruciate ligament (*case report 677*) 373
Gaucher's disease, hemorrhage associated with 'bone crisis' in, identified by magnetic resonance imaging 479
Gorham's disease (*case report 672*) 307
Granular cell tumor, malignant (schwannoma, myoblastoma), disseminated (*case report 676*) 529
Granulation tissue, radiologic appearance of osseous drill holes to promote 205
Granulocytic sarcoma (chloroma), skeletal manifestations of 509

Hamartoma, fibrolipomatous, of the median nerve (*case report 667*) 237
Hamartoma, parosteal osteochondromatous, associated with Trevor's disease (dysplasia epiphysealis hemimelica) (*case report 632*) 47
Hand: osteoarthritis associated with distal interphalangeal joint involvement in rheumatoid arthritis 495
Hand, interphalangeal joints of, high-resolution magnetic resonance imaging of 273
Hand, normal, high-resolution fast low-angle shot magnetic resonance imaging of 259
Help 42, 278, 338
Help obtained 498, 508
Hemangioma, arteriovenous (arteriovenous malformation) of the distal thigh with bone involvement (*case report 649*) 63
Hemangioma, synovial, of the knee (*case report 681*) 387
Hemangiomatosis, intraosseous, associated with arteriovenous malformation of the right lower extremity (*case report 671*) 303
Hemophilic bleed into a separate suprapatellar pouch (due to persistent plica) (*case report 661*) 369
Hemorrhage associated with 'bone crisis' in Gaucher's disease identified by magnetic resonance imaging 479
High-resolution fast low-angle shot magnetic resonance imaging of the normal hand 259
High-resolution magnetic resonance imaging of the interphalangeal joints of the hand 273
Hip: ipsilateral femoral neck and shaft fractures: an overlooked association 251
Hip: MRI appearance of femoral head osteonecrosis following core decompression and bone grafting 103
Hip prosthesis, uncemented, contrast and nuclear arthrography in loosening of 15
Hip, prosthetic, lymphatic opacification in 43
Hips, adult dysplastic, computed tomography measurements of the acetabulum in: which level is appropriate? 267
Hips, painful, following arthroplasty, arthrography of: digital versus plain film subtraction 403
Histiocytosis, Langerhans cell, (LCH), of the skin, skull and mandible with calcifications in associated soft-tissue masses (*case report 702*) 620
Humeral, upper, cortical thickness as an indicator of osteopenia: diagnostic significance in solitary myeloma of bone 363
Hygroma, cystic, clavicular overgrowth in association with 597
Hypophosphatemic rickets, X-linked, without 'rickets' 109

Imaging of the absent cervical pedicle 325
Infantile myofibromatosis (*case report 684*) 397
Infarct, bone, previous, malignant fibrous histiocytoma in (*case report 656*) 137
Infarction, femoral, following intraarterial chemotherapy for osteosarcoma of the leg: a possible pitfall in magnetic resonance imaging 325
Interphalangeal joints of the hand, high-resolution magnetic resonance imaging of 273
Intraarticular ganglion arising from the posterior cruciate ligament (*case report 677*) 373
Intraosseous meningioma of the sphenoid bone (*case report 680*) 383
Ipsilateral femoral neck and shaft fractures: an overlooked association 251
Is there a relationship between femoral anteversion and leg torsion? 409

Joints, transarticular invasion of, by bone tumors: hypothesis 279
Jumper's knee (partial patellar ligament rupture), ultrasonography in the detection of 285

Knee: hemophilic bleed into a separate suprapatellar pouch (due to persistent plica) (*case report 661*) 369
Knee: Intraarticular ganglion arising from the posterior cruciate ligament (*case report 677*) 373
Knee: MR evaluation of anterior cruciate ligament repair using the patellar tendon double bone block technique 585
Knee: popliteal cysts: a reassessment using magnetic resonance imaging 433
Knee: thrombosed, leaking popliteal aneurysm (*case report 651*) 71
Knee: ultrasonography in the detection of partial patellar ligament ruptures (jumper's knee) 285
Knee: wrinkled patellar tendon: an indication of abnormality in the extensor mechanism of 181
Knee, double contrast arthrography of, diagnostic potential with the digital technique 5
Knee joint tamponade studied in immature dogs. Technetium 99m diphosphonate uptake and intraosseous hemodynamics during venous congestion in bone 159
Knee, neuroepithelioma of soft tissues of (*case report 682*) 391
Knee, rabbit, magnetic resonance imaging reflects cartilage proteoglycan degradation in 31
Knee, synovial hemangioma of (*case report 681*) 387
Knees, arthrogrypotic, radiographic changes in 193

Langerhans cell histiocytosis (LCH) of the skin, skull and mandible with calcifications in associated soft-tissue masses (*case report 702*) 620
Leg torsion, is there a relationship between femoral anteversion and? 409
Lengths, metacarpal and phalangeal, normal values in Nigerian children 441
Letter to the editors 192, 272
Ligament, partial rupture of patellar (jumper's knee), ultrasonography in the detection of 285
Ligament, posterior cruciate, intraarticular ganglion arising from (*case report 677*) 373
Ligament repair, anterior cruciate, using the patellar tendon double bone block technique, MR evaluation of 585
Lipoblastoma of knee (*case report 675*) 319
Liposarcoma, myxoid (primary intraosseous low grade myxoid sarcoma) of the scapula (*case report 652*) 73
Loosening of uncemented hip prosthesis, contrast and nuclear arthrography in 15
Lumbar platyspondyly — characteristic sign of Ehlers-Danlos syndrome 589
Lumbar spine, postoperative, time-dependent scar enhancement in magnetic resonance imaging of 329
Lymphatic opacification in the prosthetic hip 43
Lymphoma, lymphocytic, well-differentiated, with skeletal involvement (*case report 674*) 315

Magnetic resonance appearance of peripheral nerve sheath tumors 9
Magnetic resonance evaluation of anterior cruciate ligament repair using the patellar tendon double bone block technique 585
Magnetic resonance imaging: a reassessment of popliteal cysts using 433
Magnetic resonance imaging: femoral infarction following intraarterial chemotherapy for osteosarcoma of the leg, a possible pitfall in 325
Magnetic resonance imaging and CT

findings in pulmonary *Aspergillus* chest wall involvement in chronic granulomatous disease 487
Magnetic resonance imaging appearance of femoral head osteonecrosis following core decompression and bone grafting 103
Magnetic resonance imaging features of fractures using the short tau inversion recovery (STIR) sequence: correlation with radiographic findings 499
Magnetic resonance imaging, hemorrhage associated with 'bone crisis' in Gaucher's disease identified by 479
Magnetic resonance imaging, high-resolution fast low-angle, of the normal hand 259
Magnetic resonance imaging, high-resolution, of the interphalangeal joints of the hand 273
Magnetic resonance imaging in symptomatic Paget's disease 413
Magnetic resonance imaging of disseminated bone marrow disease in patients treated for malignancy 79
Magnetic resonance imaging of myxoid containing tumors 245
Magnetic resonance imaging of stability of osteochondral fragments of the femoral condyle, with histopathologic correlation in an animal model 601
Magnetic resonance imaging of the postoperative lumbar spine, time-dependent scar enhancement in 329
Magnetic resonance imaging reflects cartilage proteoglycan degradation in the rabbit knee 31
Malignancy, benign clavicular lesions that may mimic 173
Malignant epithelial thymoma with osteoblastic metastases (*case report 657*) 141
Malignant fibrous histiocytoma in a previous bone infarct (*case report 656*) 137
Malignant fibrous histiocytoma of the patella (*case report 639*) 125
Malignant granular cell tumor (schwannoma, myoblastoma), disseminated (*case report 676*) 529
Mandible, skull and skin, Langerhans cell histiocytosis (LCH) of, with calcifications in associated soft-tissue masses (*case report 702*) 620
Maxillary sinus, chondroblastoma of (*case report 670*) 299
Measurements, computed tomography, of the acetabulum in adult dysplastic hips: which level is appropriate? 267
Medial dislocation of the patella 429
Meningioma, intraosseous, of the sphenoid bone (*case report 680*) 383
Metacarpal and phalangeal lengths, normal values in Nigerian children 441
Metaphyseal sclerosis in patients with chronic renal failure 197
Metastases, extensive, to the chest from extraskeletal osteosarcoma of the thigh with several suspected skeletal metastases (*case report 704*) 628
Metastases, osteoblastic, malignant epithelial thymoma with (*case report 657*) 141
Metastatic atrial myxoma to the pubis (*case report 689*) 465
Metastatic osteoblastic carcinoid tumor (primary in pancreas or gallbladder) (*case report 659*) 149
Metrical variation in the thumb, index and middle finger among four samples of both sexes 353
Multifocal osteosarcoma (*case report 703*) 624
Multiple cartilaginous exostoses, forearm deformities in 483
Multiple hereditary exostoses, chondrosarcoma of the proximal phalanx of right fourth finger secondary to (*case report 658*) 145
Muscle, vastus lateralis, calcific tendinitis of. A report of three cases 21
Mycobacterium avium-intracellulare, arthritis of wrist due to (*case report 653*) 291
Mycobacterium avium-intracellulare, disseminated osteomyelitis due to (*case report 687*) 458
Myeloma, solitary, of bone: upper humeral cortical thickness as an indicator of osteopenia, diagnostic significance in 363
Myoblastoma (malignant granular cell tumor, schwannoma), disseminated (*case report 676*) 529
Myofibromatosis, infantile (*case report 684*) 397
Myositis ossificans, cervical paravertebral circumscribed (*case report 694*) 539
Myxoid liposarcoma (primary intraosseous low grade myxoid sarcoma) of the scapula (*case report 652*) 73
Myxoid sarcoma, primary intraosseous low grade, of the scapula (myxoid liposarcoma) (*case report 652*) 73
Myxoid-containing tumors, magnetic resonance imaging of 245
Myxoma, atrial, metastatic, to the pubis (*case report 689*) 465

Necrosis, avascular, bilateral, of femur, with supervening suppurative arthritis of right hip (*case report 662*) 217
Neonatal and childhood trauma, usefulness of apical oblique view of the clavicle in 201
Nerve, median, fibrolipomatous hamartoma of (*case report 667*) 237
Nerve sheath tumors, peripheral, magnetic resonance appearance of 9
Neuroepithelioma of soft tissues of the knee (*case report 682*) 391
Neuropathic arthropathy of the shoulder with no identified cause (*case report 697*) 550
New lethal sclerosing bone dysplasia 117
Nodular fasciitis of the elbow (*case report 690*) 468
Normal hand, high-resolution fast low-angle shot magnetic resonance imaging of 259
Normal values for metacarpal and phalangeal lengths in Nigerian children 441
Nuclear and contrast arthrography, in loosening of the uncemented hip prosthesis 15

Opacification, lymphatic, in the prosthetic hip 43
Open Quiz (*case report 699*) 558
Open Quiz (*case report 705*) 633
Osseous drill holes to promote granulation tissue: radiologic appearance 205
Ossifying fibromyxoid tumor of the soft parts of the upper arm (*case report 685*) 608
Osteoarthritis associated with distal interphalangeal joint involvement in rheumatoid arthritis 495
Osteoblastoma, benign, causing spinal compression and spastic paresis (*case report 647*) 54
Osteoblastoma, recurring, initially presenting as a typical osteoid osteoma. Report of two cases 1
Osteochondral fragments of the femoral condyle, stability of: MRI with histopathologic correlation in an animal model 601
Osteochondroma, radiation-induced, arising from the neural arch and producing compression of the spinal cord (*case report 691*) 472
Osteochondromas, solitary, in association with bursitis presenting as mass lesions 513
Osteodystrophy, aluminum, solitary, spontaneous cervical and large bone fractures in 91
Osteogenic sarcoma, telangiectic, in hind foot of dog (*case report 673*) 311
Osteoid osteoma, recurring osteoblastoma initially presenting as. Report of two cases 1
Osteoma of the clavicle (*case report 698*) 555
Osteomyelitis, *cryptococcus neoformans*, of shoulder (*case report 664*) 227
Osteomyelitis, disseminated, due to *Mycobacterium avium-intracellulare* (*case report 687*) 458
Osteonecrosis, avascular, bilateral, of femur, with supervening suppurative arthritis of right hip (*case report 662*) 217
Osteonecrosis, femoral head, MRI appearance following core decompression and bone grafting 103
Osteonecrosis of bone associated with intraarterial therapy using cisplatin (*case report 669*) 294
Osteopenia, upper humeral cortical thickness as an indicator of: diagnostic significance in solitary myeloma of bone 363
Osteopetrosis associated with renal tubular acidosis and cerebral calcification (carbonic anhydrase II deficiency syndrome) (*case report 668*) 447
Osteosarcoma, central, low-grade, with foci of dedifferentiation (*case report 679*) 379

Osteosarcoma, extraskeletal, of the thigh with several suspected skeletal metastases and extensive metastases to the chest (*case report 704*) 628
Osteosarcoma, multifocal (*case report 703*) 624
Osteosarcoma of the leg, femoral infarction following intraarterial chemotherapy for: a possible pitfall in magnetic resonance imaging 325
Osteosarcoma, parosteal, arising from the right temporal bone (*case report 648*) 59
Osteosarcoma, primary intracortical, of femur, sclerosing variant, grade 1 to 2 anaplasia (*case report 700*) 613

Paget's disease, symptomatic, magnetic resonance imaging in 413
Parosteal osteochondromatous hamartoma associated with Trevor's disease (dysplasia epiphysealis hemimelica) (*case report 632*) 47
Parosteal osteosarcoma arising from the right temporal bone (*case report 648*) 59
Patella, malignant fibrous histiocytoma of (*case report 639*) 125
Patella, medial dislocation of 429
Patellar ligament, partial rupture of (jumper's knee), ultrasonography in the detection of 285
Patellar tendon, wrinkled: an indication of abnormality in the extensor mechanism of the knee 181
Pelvis: chondroblastoma of the right acetabulum and superior pubic ramus (*case report 696*) 547
Pelvis: metastatic atrial myxoma to the pubis (*case report 689*) 465
Periostitis due to prostaglandin E_1 (PGE_1) (*case report 701*) 617
Peripheral nerve sheath tumors, magnetic resonance appearance of 9
Phalangeal and metacarpal lengths, normal values in Nigerian children 441
Phalanx, proximal, of right fourth finger, chondrosarcoma of, secondary to multiple hereditary exostoses (*case report 658*) 145
Physical bone changes in carrageenin-induced arthritis evaluated by quantitative computed tomography 345
Pisiform fractures 169
Platyspondyly, lumbar — characteristic sign of Ehlers-Danlos syndrome 589
Plica, persistent, hemophilic bleed into a separate suprapatellar pouch due to (*case report 661*) 369
POEMS syndrome (*case report 646*) 212
Popliteal cysts: a reassessment using magnetic resonance imaging 433
Primary intracortical osteosarcoma of femur, sclerosing variant, grade 1 to 2 anaplasia (*case report 700*) 613
Primary intraosseous low grade myxoid sarcoma of the scapula (myxoid liposarcoma) (*case report 652*) 73
Prostaglandin E_1 (PGE_1) periostitis (*case report 701*) 617
Prosthesis, hip, uncemented, contrast and nuclear arthrography in loosening of 15
Prosthetic hip, lymphatic opacification in 43
Pubis, atrial myxoma metastatic to (*case report 689*) 465
Pulmonary *Aspergillus* chest wall involvement in chronic granulomatous disease: CT and MRI findings 487

Quantitative computed tomography, dual-energy, accuracy of vertebral mineral determination by 25
Quantitative computed tomography, physical bone changes in carrageenin-induced arthritis evaluated by 345

Rabbit knee, magnetic resonance imaging reflects cartilage proteoglycan degradation in 31
Radiation-induced osteochondroma arising from the neural arch and producing compression of the spinal cord (*case report 691*) 472
Radiographic changes in arthrogrypotic knees 193
Radiographic features of craniometadiaphyseal dysplasia, wormian bone type 37
Radiographic findings of degeneration in cervical spines of middle-aged soccer players 437
Radiological evaluation of the acromioclavicular joint 115
Recurring osteoblastoma initially presenting as a typical osteoid osteoma. Report of two cases 1
Renal failure, chronic, metaphyseal sclerosis in patients with 197
Renal tubular acidosis associated with osteopetrosis and cerebral calcification (carbonic anhydrase II deficiency syndrome) (*case report 668*) 447
Repair, anterior cruciate ligament, using the patellar tendon bone block technique, MR evaluation of 585
Rheumatoid arthritis, osteoarthritis associated with distal interphalangeal joint involvement in 495
Rickets, X-linked hypophosphatemic, without 'rickets' 109
Rotator cuff tears: active abduction view, a new maneuvre in the diagnosis of 255
Ruptures, partial, of patellar ligament (jumper's knee), ultrasonography in the detection of 285

Scapula: primary intraosseous low grade myxoid sarcoma of the scapula (myxoid liposarcoma) (*case report 652*) 73
Scapula, unusual chondroblastoma of (*case report 663*) 222
Schneckenbecken dysplasia (*case report 693*) 534
Schwannoma (malignant granular cell tumor, myoblastoma), disseminated (*case report 676*) 529
Sclerosing bone dysplasia, new lethal 117
Sclerosing bone dysplasias — a target-site approach 561
Sclerosis, metaphyseal, in patients with chronic renal failure 197
Seronegative arthritides of the anterior chest wall: a follow-up study 517
Sesamoid, bipartite medial, below head of first metatarsal, a developmental variant (*case report 666*) 233
Shoulder: active abduction view: a new maneuvre in the diagnosis of rotator cuff tears 255
Shoulder: bicipital groove dysplasia and medial dislocation of the biceps bracii tendon 419
Shoulder: congenital glenoid dysplasia (*case report 655*) 134
Shoulder: *cryptococcus neoformans* osteomyelitis (*case report 664*) 227
Shoulder: radiological evaluation of the acromioclavicular joint 115
Shoulder, neuropathic arthropathy of, with no identified cause (*case report 697*) 550
Skeletal manifestations of granulocytic sarcoma (chloroma) 509
Skull: intraosseous meningioma of the sphenoid bone (*case report 680*) 383
Skull: parosteal osteosarcoma arising from the right temporal bone (*case report 648*) 59
Skull, skin and mandible, Langerhans cell histiocytosis (LCH) of, with calcifications in associated soft-tissue masses (*case report 702*) 620
Soft tissues of the knee, neuroepithelioma of (*case report 682*) 391
Solitary, spontaneous cervical and large bone fractures in aluminum osteodystrophy 91
Sphenoid bone, intraosseous meningioma of (*case report 680*) 383
Spine: accuracy of vertebral mineral determination by dual-energy quantitative computed tomography 25
Spine: benign osteoblastoma causing spinal compression and spastic paresis (*case report 647*) 54
Spine: Congenital absence of posterior arch of atlas (*case report 665*) 231
Spine: fractures of the spinous processes of multiple thoracic vertebrae (*case report 688*) 463
Spine: imaging of the absent cervical pedicle 325
Spine: radiation-induced osteochondroma arising from the neural arch and producing compression of the spinal cord (*case report 691*) 472
Spine, lumbar, postoperative, time-dependent scar enhancement in magnetic resonance imaging of 329
Spine, cervical, of middle-aged soccer players, radiographic findings of degeneration in 437
Sporotrichal arthritis (*case report 678*) 376
Stability of osteochondral fragments of the femoral condyle: magnetic resonance imaging with histopathologic correlation in an animal model 601
Stress fracture at distal end of femur simulating 'periosteal desmoid' (*case report 686*) 454
Subtraction, digital versus plain film, in arthrography of painful hips following arthroplasty 403

Synovial hemangioma of the knee (*case report 681*) 387

Tears, rotator cuff: active abduction view: a new maneuvre in the diagnosis of 255
Technetium 99m diphosphonate uptake and intraosseous hemodynamics during venous congestion in bone. Knee joint tamponade studied in immature dogs 159
Telangiectic osteogenic sarcoma in hind foot of dog (*case report 673*) 311
Temporal bone, parosteal osteosarcoma arising from (*case report 648*) 59
Tendinitis, calcific, of the vastus lateralis muscle. A report of three cases 21
Tendinous xanthomata in cerebrotendinous xanthomatosis, computed tomography of 99
Tendon, biceps bracii, medial dislocation of, and bicipital groove dysplasia 419
Tendon, wrinkled patellar: an indication of abnormality in the extensor mechanism of the knee 181
Therapy, intraarterial, using cisplatin, osteonecrosis of bone associated with (*case report 669*) 294
Thoracic vertebrae, multiple, fractures of the spinous processes of (*case report 688*) 463
Thrombosed, leaking popliteal aneurysm (*case report 651*) 71
Thumb, index and middle finger, metrical variation among four samples of both sexes 353
Thymoma, malignant epithelial, with osteoblastic metastases (*case report 657*) 141
Tibia, adamantinoma of (*case report 660*) 152
Tibia, cementifying fibroma of the proximal end of (*case report 695*) 643
Time-dependent scar enhancement in magnetic resonance imaging of the postoperative lumbar spine 329
Torsion, leg, is there a relationship between femoral anteversion and? 409
Transarticular invasion of joints by bone tumors: hypothesis 279
Trauma, neonatal and childhood, usefulness of apical oblique view of the clavicle in 201
Trevor's disease (dysplasia epiphysealis hemimelica), parosteal osteochondromatous hamartoma associated with (*case report 632*) 47
Tuberculosis, disseminated (*case report 654*) 130
Tumors, bone, transarticular invasion of joints by: hypothesis 279
Tumors, myxoid-containing, magnetic resonance imaging of 245

Ultrasonography in the detection of partial patellar ligament ruptures (jumper's knee) 285
Unusual chondroblastoma of scapula (*case report 663*) 222
Upper humeral cortical thickness as an indicator of osteopenia: diagnostic significance in solitary myeloma of bone 363

Variation, metrical, in the thumb, index and middle finger among four samples of both sexes 353
Venous congestion in bone, technetium 99m diphosphonate uptake and intraosseous hemodynamics during. Knee joint tamponade studied in immature dogs 159
Vertebral mineral determination, accuracy of, by dual-energy quantitative computed tomography 25

Well-differentiated lymphocytic lymphoma with skeletal involvement (*case report 674*) 315
Wrinkled patellar tendon: an indication of abnormality in the extensor mechanism of the knee 181
Wrist, arthritis of, due to *Mycobacterium avium-intracellulare* (*case report 653*) 291

Xanthomata, tendinous, in cerebrotendinous xanthomatosis, computed tomography of 99
X-linked hypophosphatemic rickets without 'rickets' 109
